Maps

Each line of the puzzle has one word hidden in a list of random letters. The blank space is a missing letter that belongs to that word. Decide what word is hidden in the letters and write in the space the missing letter. A word bank has been provided. Each word in the word bank appears somewhere in the puzzle.

- Unit for expressing latitude and longitude.
- Distance north or south of the equator, measured on a meridian.
- Half of the terrestrial globe, or a projection of the same in a map or picture.
- 180 degrees longitude is known as the _____ Line.
- The imaginary great circle on the earth's surface, everywhere equally distant from the two poles, and dividing the earth's surface into two hemispheres.
- An imaginary great circle on the surface of the earth passing through the north and south poles at right angles to the equator.
- A sphere on which a map (especially of the earth) is represented.
- On a topographic map, _____ lines show elevation.
- _____ maps give specialized information about such things as climate, vegetation, or human activities.
- "Down" on a map.
