# Maps

Each line of the puzzle has one word hidden in a list of random letters. The blank space is a missing letter that belongs to that word. Decide what word is hidden in the letters and write in the space the missing letter. A word bank has been provided. Each word in the word bank appears somewhere in the puzzle.

- At 0 degrees longitude from which east and west are reckoned (usually the Greenwich, England longitude).
- A line of latitude south of the north pole.
- Distance north or south of the equator, measured on a meridian.
- An imaginary great circle on the surface of the earth passing through the north and south poles at right angles to the equator.
- \_\_\_\_\_ maps give specialized information about such things as climate, vegetation, or human activities.
- "Down" on a map.
- One of two points of intersection of the Earth's axis and the celestial sphere.
- On a map, it may be shown by a compass rose.
- On a topographic map, \_\_\_\_\_ lines show elevation.
- A sphere on which a map (especially of the earth) is represented.
