# Rivers

Using the Across and Down clues, write the correct words in the numbered grid.

## ACROSS

1. A crescent-shaped lake that is formed when a meander of a river is cut off from the main channel.
5. A low triangular area where a river divides before entering a larger body of water.
6. The place where a river or stream empties into another body of water.
8. This river was important in the development of several great civilizations in ancient Mesopotamia.
9. A curve in a stream.
10. Rivers or streams that dry up for part of the year are called \_\_\_\_\_ streams.

## DOWN

2. A line that divides two adjacent river systems.
3. One source of water renewal in rivers.
4. Where a river begins.
7. A possible river destination.
