

Name: _____

Date: _____

Weather

Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

3. Frozen precipitation in the form of white or translucent ice crystals.
4. Any wind that changes direction with the seasons.
8. Usually seen on clear winter nights in an array of shapes and colors near the earth's magnetic poles.
9. Horizontal movement of air in relation to the earth's surface.
10. The process by which water in plants is transferred as water vapor to the atmosphere.

DOWN

1. The physical process by which vapor becomes liquid or solid; the opposite of evaporation.
2. The air surrounding and bound to the earth.
5. An arc of colored light in the sky caused by refraction of the sun's rays by rain.
6. Frozen rain droplets created by the up drafts of convective thunderstorms.
7. Droplets of water vapor suspended in the air near the ground.
