Weather

Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

- 1. Usually seen on clear winter nights in an array of shapes and colors near the earth's magnetic poles.
- 2. Someone who studies the weather.
- 5. Frozen precipitation in the form of white or translucent ice crystals.
- 7. Visible electrical releases created by thunderstorms.
- 8. A vortex of air rising into a cloud.
- 9. An arc of colored light in the sky caused by refraction of the sun's rays by rain.

DOWN

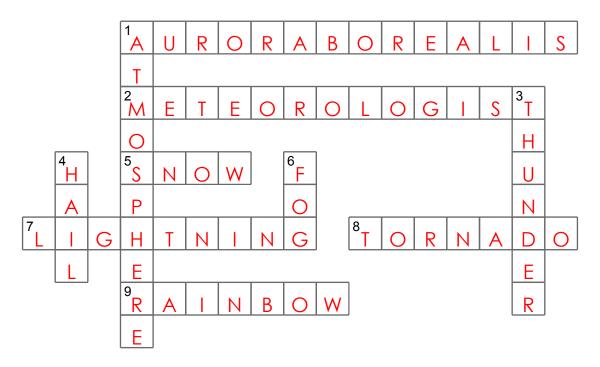

- 1. The air surrounding and bound to the earth.
- A booming or crashing noise caused by air expanding along the path of a bolt of lightning.
- 4. Frozen rain droplets created by the up drafts of convective thunderstorms.
- 6. Droplets of water vapor suspended in the air near the ground.
