Math vocabulary.

Each line of the puzzle has one word hidden in a list of random letters. The blank space is a missing letter that belongs to that word. Decide what word is hidden in the letters and write in the space the missing letter. A word bank has been provided. Each word in the word bank appears somewhere in the puzzle.

1. Movement of a figure to a new position by flipping it over a line.
2. Way to write numbers by using words.
3. Combining a set of numbers together to get a total.
4. The answer to an addition problem.
5. Having the same size and shape.
6. The distance around a circle.
7. The amount a container can hold when filled.
8. To find a number that is close to an exact amount.
9. Whole number greater than 1 with only two factors, 1 and itself.
10. Whole number that is not divisible by 2.
